EXPLANATORY NOTE

In this index, all original contributions, editorials, transactions of societies, biographical and historical sketches, etc., that have been published in Surgery, Gynecology and Obstetrics during the twenty years, July, 1905, to June, 1925 (Volumes I–XL), together with all collective reviews that have appeared in the International Abstract of Surgery beginning February, 1913, are carefully indexed and cross-indexed to provide ready access to the great volume of material that has been presented. The year, volume and inclusive pages for each reference are given in the order named.

C.C.S. indicates reference to Clinical Congress of Surgeons material that in certain issues appeared in supplements that were not included in the regular paging system of the journal. The folios shown are those of the supplement and not of the journal proper.

I.A.S. indicates reference to collective reviews that have appeared in the International Abstract of Surgery.

abdominoscopy. O. P. Steiner, 1924, 38:266-269, 575
aspiration of peritoneal cavity. C. S. White, 1923, 36:343-347
errors in diagnosis in laparotomies. R. M. Harbin, 1925, 40:264-270. Correction, 721
errors in diagnosis in upper abdomen. J. E. Moore, 1909, 8:324-325
exploratory incision versus paracentesis in ascites. U. Maes, 1923, 37:543-545
exploratory laparotomy. C. H. Parkes, 1917, 25:528-532
forcible dilatation of the kidney pelvis as a means of diagnosis. G. L. Hunner, 1910, 10:485-493
inflation of colon in roentgen examination. H. B. Phelps, 1920, 31:531
osteo-arthritis of spine complicating abdominal disease. F. D. Dickson & A. H. O'Neal, 1912, 15:552-558
pain and muscle tension of pleura simulating that from abdomen. F. M. Pottenger, 1925, 40:62-70
ureteropyelography (urography). D. N. Eisendrath, 1924, 38:666-673
value of distention of renal pelvis through ureteral catheter. L. Freeman, 1910, 10:36-38
Drainage: See Drainage
Enlargement: See Obesity
Foreign bodies
experiments on omental adhesions. H. Neuhof & S. Wiener, 1910, 10:348-353
loose bodies in abdominal cavity. M. Emmert, 1918, 27:474-480
Muscles, physiology and pathology. A. Rose, 1906, 3:689-694
Neurasthenic abdomen: See Neurasthenia
Pain
acute perforative cholecystitis and peritonitis; points of differentiation. C. M. Remsen, 1913, 16:386-390
aspects of renal surgery. J. B. Squier, 1917, 24:641-645
chronic abdomen. F. G. Connell, 1914, 19:742-746
colics of vermiform appendix. W. Van Hook, 1909, 9:143-145
in children, clinical significance. J. Brenneman, 1922, 34:344-350
method of locating areas of pain in visceral diseases. P. A. Harris, 1909, 9:638-649
ovarian cysts in relation to. J. A. Sampson, 1907, 4:685-690
pleural pain and muscle tension simulating that in abdomen. F. M. Pottenger, 1925, 40:62-70
surgical significance. T. C. Witherspoon, 1923, 37:119
upper abdomen and chest. C. H. Peck, 1924, 38:220-222
ureteral stricture as explanation of some obscure conditions. T. M. Green, 1922, 34:388-394
Pendulous: See Obesity
Pressure
fallacies of intra-abdominal and atmospheric pressure as supports of abdominal organs. C. W. Barrett, 1908, 6:369-378. Discussion, 430-432
intra-abdominal and intravisceral pressure. Editorial. R. C. Coffey, 1922, 35:518-520
